

Total points = 12

1. If lines are parallel, ✓ then they do not intersect. ✓
2. If angles are right, ✓ then they are congruent. ✓
3. If numbers are even, ✓ then they are divisible by two. ✓

1. If 7 is an even number, then 10 is composite. ✓ False ✓
2. If triangle is a polygon, then 3 is a prime number. ✓ True ✓
3. If a straight angle measures 180° , then 5 is an odd number.
✓ True ✓
